NEPAL

EXPEDITION 2021

**STUDENT
FUNDRAISING
PROJECTS**

Why have you received this catalogue?

Twenty two students from our school are very excited to be undertaking an expedition to Nepal in October 2021. This is a fabulous opportunity for our students to experience a very different culture and to take part in some real development projects, which will have a long lasting and sustainable impact on local communities in Nepal.

Croydon High School, in partnership with Global Action, are working to ensure our students have this opportunity to broaden their own personal experience as well as gain an understanding of other places and people in the world. This will have a long term impact on them, such as gaining interpersonal skills, resilience, a sense of global citizenship and being part of a close knit team. An important part of the expedition is to raise funds to pay for the cost of travel, accommodation and to support local charities in Nepal, such as the Gurkhas and Water projects.

Despite the difficult situation we are in due to Covid19, Croydon High School is determined that our students do not lose the opportunity to take part in these life changing experiences. Therefore we are supporting their individual fundraising by collating a collection of their own home made products into this catalogue.
