I loved how we got to be so independent with the choices we made in directing and performing each scene - the freedom to explore was fun.

Talia

I really enjoyed how we used costumes and props to define each character.

Amy

I really enjoyed the fact that we were able to play so many characters and we all put in our individual ideas whilst working as an ensemble.

Emily

I loved how we worked together creatively to develop a unique performance - it was our own unique idea.

Seren

I really loved how in every scene, everyone was part of it, whether it was as a main character or a tree in the forest!

Mia

I loved performing the play because I got to explore my acting potential and have an incredible experience. It was so much fun working with everyone and I would definitely do it again, even though I was very nervous!

Nina

I really enjoyed working separately in our different classes, then working together in collaboration to really bring the whole performance to life.

Maddie :)

I really liked how we had our teachers as directors as well as a student director. They joined together with us so we all became one company and cast. It was the most fun I have had in a long time.

Fiiyin

I love the way the two groups came together to create such an amazing and unforgettable performance.

Phoebe

I really love how we had creative freedom for this piece. The energy we created was just amazing. We all supported each other so much. We just had fun with this play instead of seeing it as an assessment.

Juanita

The Shakespeare for Schools was such an awesome experience! I personally enjoyed the collaboration between the two classes and how the play really came to life when we had the right lighting and props. Even though we didn't have a live audience, the energy was still high and by the end we were all so proud of ourselves.
