

## Art & 3D Design Scholarship Programme

- Scholars will receive our Art & 3D Design Scholars pin badge to proudly wear on the lapel of their school blazer.
- Each scholar will be assigned a member of the Art & 3D Design department as their mentor, with half-termly formal scheduled meetings.
- We aim to pair the younger scholars with older scholars so that they always have someone with whom they can share their experiences.
- Each scholar will be invited to the variety of co-curricular clubs we have on offer and would be expected to attend at least one every term.
- End of term lunches and group visits to various exhibitions/in school lectures/workshops will also form part of the programme.

We continue to be excited by this scholarship scheme and we will strive to give our Art & 3D Design Scholars the very high profile that they all deserve.

Elizabeth Smith

Head of Art & 3D Design
